

Unique, memorable experience & package, as “the packaged Definitely Different real deal!”

South Africa is a year round destination with great weather and offers value for money. It is not only a safari destination, but also offers you various other aspects of leisure like nightlife, entertainment, shopping, adventure and relaxation. The people of South Africa are friendly and welcoming and travelling within the country is safe and easily accessible by air, road and rail.

mirchee is a destination management company that caters to the traveler who is looking for **‘the’** tour operator that can offer **that extra special service** along with **unique and different** travel ideas. That’s what sets us apart, as we take the extra effort to ensure all your travel needs are met with, as per your expectations. Our forte lies in **Incentive, conference, exhibitions & trade, student, sport, special focus and leisure group travel.**

In saying “our prices are generally very competitive with exemplary service, and combined with a great experience. All-in-all, this is our core focus which is valued most highly by our clients.

We confidently, though never arrogantly claim to, constantly ensure and strive to offer that truly unique & memorable experience & package, as “**the packaged definitely different real deal**”.

Unique tours:

The ` **definitely different deal** 'would also include our unique tours to South Africa.

We offer our high-end luxury clients various types of tours that give them a completely different experience to suit their lifestyle and taste.

A few examples would include a Ferrari tour & Harley Davidson motor-biking tours for those with the need for speed, luxury tented tours with personal driver, butler and chefs, Jet-ski seafari, Quad tours, side-car adventures, pink tours, silver tours, Game capture adventures, Gorilla trekking , Home-stays, to name a few.....

We Care

Having had a fulfilling holiday and being assured that you have socially and environmentally contributed in a small but responsible manner -wouldn't that make your travels a little more worthwhile?

We want to make a difference and do our best in making the world a better place for each and every one. A small contribution (even as little as R 10) will help us make that difference. Every year or sooner, 'mirchee' will donate the contributions to a charity, or charities, of our choice and all details of these initiatives will be posted on our website.

We at 'mirchee' also strive to make a difference in the quality of our living environment. We are concerned about the carbon footprints we leave behind and how we can make a difference to preserve our environment both for us and for generations to come.

We do our best to ensure that our suppliers and hotels we deal with have a greening policy in place. Reduce, Re-use, Recycle is our policy.

Travel Tips

Geography: Situated at the Southern tip of Africa, South Africa is edged on 3 sides by a nearly 3000km of coastline, washed by both the Indian Ocean and the Atlantic. It's bordering neighbors on the north are Namibia, Botswana, Zimbabwe and Mozambique, and it also wraps itself around two independent countries, namely Lesotho and Swaziland.

Best time to visit: South Africa, with its sub-tropical climate, experiences near-on 300 days of sunshine each year. The best time for outdoor activities is anytime between late-spring (around October/November) and beginning-autumn (late March/early June).

Cape Town enjoys a sunny winter mostly, but the weather can change unexpectedly to a chilly, rainy day.

There is no ideal time to visit South Africa due to the different climatic conditions which often exist simultaneously across the country.

Communication: South Africa has a well-developed communications infrastructure, with a number of cellular-phone service providers offering national coverage. Most urban areas provide Wi-Fi or other forms of Internet accessibility.

Water: Municipal (and reputedly sourced) piped as supplied tap water is generally safe to drink and potable, as had by most locals, but bottled water is also readily available. We do however suggest you carry bottled water when you travel to remote rural areas and the bush (safari), as such sources/supplies may be a little more distant.
